

PROJECT: Residence, Dallas, TX – Staging for Sale
PRESENTED TO: Donna Leibow
DATE: December 20, 2018

Overall recommendations include removing all personal effects (family photos and religious items) so that potential buyers may see themselves moving in and lightening the interiors to enhance the spaciousness of the home. Color selections will be provided upon request, but generally to be cream-colored walls with white trim. Most ceilings to be white; exceptions listed below.

Specific observations/ideas are listed below per room. Note that this is may not be complete and may need adjustment as the project progresses.
